

Why KTU?

APJ Abdul Kalam Technological University (KTU) welcomes you to its fold where you plan to do your B.Tech degree in the branch of specialization to which you have been admitted. KTU has prepared its outcome based curriculum for all courses which gives emphasis on experiential learning for the organic growth of the students and meeting the requirements of the industry. Several new courses have been introduced to make the curriculum acceptable internationally. Several initiatives viz. introduction of B.Tech (Honours), student activity point system, entrepreneurship and similar subjects as minor, etc. were introduced to facilitate students to excel the students in curricular and co-curricular activities and to enable him to be job provider than a job seeker.

Live the life together @ KTU

Academics, Research &
Entrepreneurship

What is NEW with KTU?

- Knowledge based, Project based and Experiential learning
- New courses on Design Engineering, Sustainable Engineering, Life Skills, Business Economics, and Design Project for all branches.

The first point of contact of a student is his **STAFF ADVISOR**

Students should have **75% attendance** in the course, Internal Assessment marks should be **45% or more** to become **ELIGIBLE TO WRITE** the end semester examination. The minimum mark required to earn credit in the end semester exam is 45%

The students who have failed in any course due to lack of eligibility can register for **SUMMER COURSES** provided the attendance in regular course is above **50%** and Internal Assessment marks were more than or equal to **35%**.

The curriculum of any branch of the B.Tech programme is designed to have a minimum of **180 academic credits and 2 additional pass/fail credits**, for the award of the degree. A student has to earn a **MINIMUM 35 CREDITS out of 47 credits** at the end of second semester to be eligible to register for the courses offered in the third semester.

KTU has introduced activity points to be earned by the students during their academic stay at the University covering extra-curricular and co-curricular activities. All students have to earn a minimum of **100 ACTIVITY POINTS** from various activity segments.

The students may carry out **INTERNSHIP** or training in industries during the semester breaks. The students along with the faculty can identify nearby industries or work sites to undergo training. The internship activities will help students to improve their skills.

Students who want to initiate a **START-UP** venture or entrepreneurial activity, have to submit a project report, indicating the purpose, action plan, technical details, funding details and future plans to the college Principal to avail one year **BREAK OF STUDY**.

E-governance platform of KTU helps students to obtain information relating to academics, examination etc.
