Notification

STATUS OF VALUATION OF LOWER SEMESTERS

University is in receipt of many queries and complaints about the pending valuation/revaluation results of lower semesters of various courses and programmes. In this direction, University wishes to present the following status on the valuations/revaluations and the issues associated:

- *University used to publish the results of revaluation within 3 months after the submission of revaluation requests. Accordingly, revaluations of S7 supplementary examinations were completed fully by the last week of February itself.*

- *University used to intervene whenever delay in valuations were noticed or reported. In case of emergencies, answer scripts to be valued were relocated to other camps for expediting the valuation process. However, during this unprecedented times of Covid-19 pandemic, University is facing many unexpected hardships and issues such as:*
 - i. *Many areas, where CV camps were functioning and operational, were declared as 'containment zones' by the authorities and all such camps were closed after April 15th.*

 - ii. *During the valuations of September 2020 examinations, around 10 faculty members were reported Covid positive. On an average, there were about 70-100 known cases during this period. Many first and Chief examiners, to whom answer books were issued, were reported Covid positive and were unable to complete valuation and report to the camps.*

- iii. *The declaration of lock down from 8th May onwards restricted the movements of faculty*

and staff, and as a result, the valuation in all CV camps was badly hit. Due to many issues pertaining to restrictions of travel coupled with reported higher Covid propagation rates in many locations, faculty members were unable to carry out valuations in many CV camps.

iv. At this juncture, University tried to relocate the answer scripts to other CV camps where test positivity rate was comparatively less. However, many such relocation plans could not be materialized as Postal department were denied access to many CV camps.

v. University has written to the Government to permit the opening of all CV camps and permit movement of faculty for valuation. However, authorities are to follow the SoPs related with containment zones and movement through such zones.

It is expected that all valuation camps will be functional soon and **all pending valuations could be resumed in full swing from June 17th onwards**. The latest status updates of valuation are shown below:

Valuation Status of Dec 2020 Exams (as on 14.06.2021)

B.Tech S7 - Valuation status	Number of answer books	% Completion of valuation
Valuation Completed	1,91,232	98.5%
Answer scripts with Examiners	2,655	1.4%
