## **Message to students**

University observes an issue of wrong upload of an answer book copy against a student's request. In certain social media platforms the instance is interpreted as valuation of a student's answer book with another student's answer book.

A student requested for answer book copy was issued with a wrong answer book which is of another semester and of another student because of a human error happened in selecting scanned file from a folder in computer from the side of valuation camp. When intimation regarding wrong upload of answer book was sent to the camp, the correct answer book of the said student has been uploaded within 2 hrs. There after no more complaint is received from said student anything regarding valuation based on wrong answer book.

For the last 4 years, University never received complaint from students or colleges regarding valuation done based on answer book of another student due to an error occurred in valuation camp or software. Very few instances of such issues happened only due to mistake in pasting barcode on answer book in the exam hall itself. Both the student and invigilator hold the responsibility of pasting barcode of another student on a student's answer book in the exam hall. Whenever such issue is notified, we have collected explanation from respective colleges and steps were taken to publish correct result. Since Alpha numeric code is printed on all the 5 barcodes issued for a student and name and register number of student on first barcode, negligence from the part of student and invigilator is the sole reason for such mistakes and only very few issues are notified during the last 4 years.

Many students apply for copy of answer books utilising the provision provided by University for obtaining answer book copy and there is no standing complaint on valuation done by another student's answer book.
