**PROCEEDINGS**

APJAKTU Shift college - Category change at the time of college shift - Orders issued.

---

*ACADEMIC SECTION*

PROCEEDINGS NO. KTU/DR(ACADEMIC)/3599/2018 Dated, Thiruvananthapuram, 26.07.2018

---

Read:- 1. Circular No. KTU/A/167/2016 dated 13.06.2018  
2. Circular No. KTU/ASST1(ACADEMIC)/2217/2018 dated 14.06.2018

**ORDER**

As per the circulars cited above permission were granted to the affiliated Institutions (except Government / Aided Colleges) to admit students of both KVM College of Engineering & IT, Cherthala and Shahul Hameed Memorial Engineering College Kadakkal, Kollam subject to condition that only those Colleges which are authorised to admit students under NRI Quota need grant admission to students admitted under that quota.

However, it has come to the notice of the University that the hosting institutions, taking advantage of the situation, were admitting merit, TFW & NRI quota students in the existing vacancies under management quota. Admitting of merit and TFW students in management seats leads to denial of fee concession and other privileges due to the students who are from economically weaker sections.

Considering the same, orders have been issued by the Vice Chancellor to approve the category change after considering the merit, case by case, so as to minimise the hardships of students shifted from these two institutes.

Therefore the principals of the hosting colleges, who have requested category change to accommodate students shifted from SHM College, Kadakkal and KVM College, are requested to come in person to the University with all relevant documents.
