NOTIFICATION

As intimated through an earlier Notification, University was trying to publish the results of Supplementary Examinations before 15th January 2021. Many a students, especially those with a single supplementary paper to clear the Degree, used to desperately seek response of the University on the delay in the declaration of results.

This is to inform all students that the entire management of answer scripts including valuations has been done abiding all the Covid 19 protocols. As per SoP to be followed, answer scripts were even accessed only after seven days of exams. Moreover, the errors encountered in the answer scripts management due to examination 'centre change' option had created numerous issues. Many entries from Institutions related with 'absence' and 'spare barcodes' were found to be erroneous upon scrutiny. It was observed that service of many faculty members unfamiliar with the digital examination cell activities were used in many exam centers (on alternate days) due to acute shortage of staff. As a result, the sorting related activities got delayed in many centers adding onto a cumulative delay; many of which, demanded direct intervention from the University. Since the options for Examination 'Centre change' is a new feature which was introduced for the first time, fixing the errors related with it took more time than anticipated. Moreover, being a confidential exercise, we have limitations in involving more staff into the examination related data entry. In spite of all these limitations, the Examination team is working on it and University will try to publish the results at the earliest.

It is also observed that students used to demand conduct of supplementary examinations immediately after the declaration of every semester results. This is to inform all students that the University is having a consistent system of conducting examinations at regular intervals as per defined protocols. Conduct of too many examinations will result-in the delay of publication of results and will badly affect the quality of the valuation process. Hence, University is unable to respond to such unnecessary requests/mails from students. It is requested that students may desist themselves from posing such requests for frequent conduct of Examinations.

Thanking you for the Support.

Dr. Shiny G

Controller of Examinations (In Charge)
