

IMPORTANT DATES

Last Date for Registration:

12th January 2018

Confirmation of Selection:

14th January 2018

Commencement of workshop:

18th January 2018

REGISTRATION

Applicants from AICTE approved engineering Institutes should forward applications to the mail id given below in the format attached before due date. The candidates will be intimated regarding their selection by email.

Participants may bring the application along with the registration fee of Rs. 100/- at the time of registration. A work book covering the entire course will be provided free of cost along with the CD having trial version of STAAD and Primavera.

ABOUT UKFCET

UKF College of Engineering & Technology is owned and managed by the Universal Knowledge Foundation trust. Started in the year 2009, the college has come to a full circle and has carved out a niche for itself in the professional educational scenario of the state. UKF College is rich in its infrastructure as well as human resources. A team of well qualified, experienced and dedicated faculty are our most valuable assets.

INTERCAD SYSTEMS PVT LTD

Established in 1993, with a strong hold on the global sector as an avant-garde technology company, INTERCAD Systems is an ISO 9001 2008 certified company, with locations in India & Middle East, providing solutions in CAD and Enterprise segment. With keen focus on Technology Software Promotion, Software Asset Implementation and Training / Consultancy Services, our customers include businesses from various fields including Architecture, Construction, Automotive, Manufacturing, Civil engineering, GIS, Plant & Ship design, along with Enterprise-IT/ITES, Animations & Graphics, Game development, Pharmaceutical Companies, Project Management Sectors and Educational Institutions.

ABOUT THE WORKSHOP

This workshop aims to provide an excellent platform for learning/understanding the

Computer Aided Civil Engineering Lab as per KTU syllabus, included in the curriculum of the sixth semester. The programme mainly concentrates on "Analysis and design of steel and RCC elements using STAAD and use of Project Management software Primavera" and is of great use to the faculties of various engineering colleges.

OUR DEPARTEMENT

The Department of Civil Engineering, started in the year 2009 is a leading department offering under-graduate course in Civil Engineering and post graduate course is in Environmental Engineering & Management. The discipline of Civil Engineering is broad and offers many exciting opportunities.

Research activities are initiated under M.Tech programme to develop the skills for future research and developmental activities. The department offers many exciting opportunities in India and overseas.

OUR VISION

To excel in both research and academic excellence in all sub areas of civil engineering with high technical competency and to be recognized at national and international levels for contributing sustainable technology for society. To inculcate strong basic and applied technology for nation's development and to serve industry, profession, and community through novel solutions and ethics for sustainable development.
