

About the Institution:

Mangalam College of Engineering stands supreme in the field of technical education providing excellence and quality in education. In keeping with the goal of excellence, the academic programs are supported by well experienced and dedicated faculty. The institution is approved by the All India Council for Technical Education (AICTE) and affiliated to APJ Abdul Kalam Technological University in Kerala. Mangalam College of Engineering is promoted by the Mangalam Educational Society with a mission to bring out leaders for a technology driven environment.

About the Organizing Department:

Department of Electrical and Electronics Engineering

The Department of Electrical and Electronics Engineering was established in the year 2002. It provides a progressive environment for learning using systematic teaching methodologies, rigorous practical training, contemporary curriculum and research using creative activities in conventional and thrust areas of Electrical and Electronics Engineering. The students actively engaged and mentored in scholarly and creative endeavours which help them to develop the ability to navigate through a rapidly changing technology driven environment. The Faculty dedicated to excellence in teaching, exemplified by a free exchange of ideas.

Workshop Outline:

This workshop will provide an overview on effective technical writing, with a focus on writing technical conference and journal papers. A good idea, while necessary, is not sufficient to get a conference and journal paper accepted. In the workshop, we will discuss guidelines for organizing and planning a conference paper, go over writing styles, and discuss how to avoid plagiarism. The workshop will be highly interactive.

Who Should Attend?

This workshop is likely to benefit faculty members and students in academic institutions who plan to write research papers for conferences and journals. We encourage both experienced researchers as well as those in the initial stages of research, such as B.Tech., M.Tech., and Ph.D students, to participate in this workshop. We intend that the guidelines and skills discussed in this workshop will help participants improve the chances of getting their conference and journal paper accepted.

Workshop Content:

Session 1: Significance of Research and Research Ethics

Session 2: Research Problem Formulation and Literature Review

Session 3: Introduction to general technical writing. Contours of a technical conference, journal paper and paraphrasing.

Session 4: Writing style, Journals and Journal Publications.

Important Dates:

Last date for Registration: 10th February, 2018
Date of Intimation : 20th February, 2018

Registration link:
