

ABOUT THE COLLEGE

Sree Chitra Thirunal College of Engineering Thiruvananthapuram was established by the Government of Kerala in the year 1995, under the University of Kerala. The institution has the broad objective of being an active agent of change by responding to the needs and challenges of time, by grooming young men and women into technocrats through the process of engineering education, training and research. SCTCE is one of the few colleges in the state that has earned the prestigious NBA accreditation for all the major departments and ISO 9001: 2006 certification within a short span of time. SCTCE is also having the privilege of being one of the top six colleges in the state aided under the World Bank funded Technical Education Quality Improvement Programme (TEQIP).

AWARENESS PROGRAM ON NOISE POLLUTION AND AIR POLLUTION

Kerala State Pollution Control Board, being the primary policing agency against the pollution, is concerned about the spiking noise and air pollution in the city, especially during special occasions like festivals, due to lack of awareness about its ill effects to the general population. Together with IMA and funded by the Department of Environment and Climate Change, Government of Kerala, this program was envisaged to disseminate awareness to the primary knowledge diffusers and ultimately to the general public.

Focal Theme: Noise and Air pollution

Event Theme: Increase in Noise and Air pollution in the city during special occasions.

Dates: 26th and 27th March, 2018

Venue: Indian Medical Association Hall, Near General Hospital, Thiruvananthapuram

Events:

- Technical Talks by Experts
- Address by Panel of Doctors
- Panel Discussion

Target audience:

Selected teachers and PTA representatives, NSS volunteers and Nodal officers of Schools and Colleges

PROGRAM SPONSERS

The Department of Environment and
Climate Change (**DoECC**) under Environment
Department was constituted in December 2010
to encourage and promote environment and
Climate Change related activities in the Kerala.
as per G.O.(Ms.) No.06/2010/Envt dated
18.12.2010 and the existing Environment
Management Agency, Kerala is declared as the
Directorate of Environment and Climate
Change under the Environment Department,
Government of Kerala

The Kerala State Pollution Control
Board (**KPCB**), established on 12 September
1974, is a statutory body under the Department
of Environment, Government of Kerala, India.
The Pollution Control Board has been
established as a regulatory authority for
implementing various pollution control laws
related to sustainable environmental
protection; thereby committed to provide
pollution free environment to the people of
state. The Board has undertaken various
studies of underground water, solid and air to
take remedial steps to control pollution.

The Indian Medical Association (**IMA**)
is the only representative voluntary
organization of Doctors of Modern Scientific
System of Medicine, which looks after the
interest of doctors as well as the well-being of
the medical fraternity at large.

OBJECTIVES

The program aims at radiating
awareness regarding a serious yet neglected
issue of increase in noise and air pollution during
festive seasons. Kerala, being a culturally rich
and vibrant state, has a lot of local and mass
participant events. The noise and air pollution
associated with such events are often not
monitored due to emotional reasons. But the
pollution being a public issue needs to be
addressed in a public platform. Generating
awareness in the grass root level is always
the best and most effective method to
address social issues. To achieve this goal,
an awareness program targeting the base
level knowledge diffusers is envisaged.

REGISTRATION

Anyone who wishes to attend the programme
should register in advance. The number of
participants is limited to 100. The registration
will be on a first come basis. Please send the
duly filled registration form via mail to
nidhinsctbt@gmail.com. For any
information regarding registration contact
Dr. Nidhin Sreekumar at +91 9496365797

RESOURCE PERSONS

Faculty experts
Activists
Technical Experts
Panel of Doctors

ELIGIBILITY

All who wish to act as base level awareness
diffuser.
