COMPILER DESIGN

Faculty Development Programme

/17-21 DEC
2018/

All about the workshop

This Faculty Development Program (FDP) is the first part of a series of two FDP's. The main objective is to enhance one's basic knowledge and learn the theory and practice behind building compilers. The program is based on the Compiler Design syllabus in Computer Science and Engineering of APJ Abdul Kalam Technological University. The first FDP primarily focuses on the theoretical aspects and the various phases in a Compiler. The second FDP which will be conducted during the summer break would revolve around the practical implementations in building compilers in accordance with Compiler Design Lab syllabus of KTU.

Targeted Audience

Teachers and Researchers of CS/IT/MCA

Total Seats : 30

Registration Fee: Rs. 2000*

Last Date for Registration: 10 December 2018

Resource Person

Anil Kumar S

Assistant Professor
Department of CSE
Gov. Engineering College, Idukki

Amal Jyothi
College of Engineering
Kanjirappally
