PREFACE TO THE COURSE

Digital crime is more prevalent than ever, and the attacks are getting highly complex. Cyber security is becoming increasingly important in today's networked world and is impacting every aspect of society including finance, healthcare, government, education and entertainment. Blockchain is an emerging platform for developing decentralized applications and data storage, over and beyond its role as a platform for cryptocurrencies such as Bitcoin, Ethereum etc. The objective of this workshop is to impart the basic principles of cyber security from the perspective of providing security awareness and to disseminate the knowledge of blockchain technology. It will enable the participants in acquiring knowledge of relevant theoretical concepts, tools, implementation strategies and current practices in these areas.

COURSE CONTENTS

- Blockchain and Bitcoin Networks
- Cryptographic Concepts of Blockchain
- Consensus Protocols
- Ethereum World Computer and Smart Contracts
- Hyperledger Umbrella Projects
- Security in Social Networks
- Privacy and Identity Issues
- Emerging Opportunities

INTENDED AUDIENCE

This course is intended for faculty members from all engineering disciplines and polytechnics.

ABOUT THE INSTITUTION

College of Engineering Perumon was established in the year 2000 under the Co-operative Academy of Professional Education (CAPE), Govt. of Kerala. The college has registered speedy progress since then and it offers five undergraduate programmes (ME, ECE, EEE, CSE and IT) in affiliation with APJ Abdul Kalam Technological University. An M.Tech programme in Computer and Information Science commenced in the academic year 2011-12.

College of Engineering Perumon has attained recognition of ISO 9001:2015 certification from the Integrated Quality Certification PVT Ltd. Two UG programmes, EEE and ECE got accredited by NBA. The college has a distinctive academic stature in the arena of engineering institutions in the state.

ABOUT THE DEPARTMENT

VISION:To emerge as a department of global stature in the field of computer science education, research and development.

MISSION:

- To equip graduates in the field of computer science with competent technical and analytical skills, innovative research capabilities and leadership potential.
- To instill graduates with integrity, discipline and ethics to work with commitment for the progress of the society.

The Department of Computer Science and Engineering was established in the year 2000 offering four year B.Tech programme in Computer Science and Engineering and Information Technology.
